# Stage Pin Devices

Drawing on over a hundred years of expertise, Hubbell Wiring Device-Kellems sets the standard for innovation, performance, durability, safety and convenience. Our philosophy is never leaving well enough alone. We believe we can always make our products better—and the record shows we have.

When it comes to stage pin products, we listened...

The result is a removable sleeve that is highly heat stable and heat resistant. It does not allow the heat generated at the connection to negatively impact the device. Like phenolic devices of the past, this modern innovation will provide for a cool running device that is simple and convenient to wire.

The super tough engineered thermoplastic enclosure makes the device

- » Lightweight
- » Impact resistant
- » Easy to handle

Our design delivers 'The Best of Both Worlds!'

## Adjustable Strain Relief

Accommodates the widest range of cables all in one device while exceeding UL requirements

## Simplified Wiring

Removable contacts that snap back into place for greater wiring flexibility and simplicity

## Ergonomic Shape

For easy insertion and withdrawal from mating devices

## Single Cable Sets and Breakouts in One Device

60 Amp

### Highly Secure Terminations

Stainless steel double set screws with fine pitch threads maximize termination strength for cooler running connections

### Heat Resistant Sleeves

Patent pending, highly stable and heat resistant contact shrouds provide phenolic functionality with a modern twist

### High Performance Brass Contacts

Provide improved performance and extended life by reducing operating temperatures

### Durable Thermoplastic Construction

Lightweight, highly durable thermoplastic body for maximum impact resistance

### Termination Styles

Ring Terminal and Double Set Screw termination options are available for 60A and 100A panel mounts
